EDUCATIONAL. REPORT OF THE SCHOOLS OF NE-

GESTIONS FROM THE COUNTY SUPERINTENDENT. Our educational matters have been steadily on the advance. There has been a spirit manifested and a disposition rendered visible to support the cause of education, and to carry out to the letter the School Law. The several district boards are awake to this matter. They do not intend to stand and let the important work be at rest. We cannot but expect the work to presper under their vigilant supervision, and experience teaches that, whenever a people become awakened to their true interests, no "stone will be left unturned," but every effort will be made to make the enterprise a successful one. We believe the people of Nemaha county are alive to their best interests, and are designing to have the best schools in the State. An interested people rection. The moral nature of man subjected to transformation by mental cultivation. The intellectual or one. One destitute of due thought portable Grist Mill which it is thought mental powers of a child can be duly developed, or strenuously applied onknowledge, and this alone, will diof time. To reap a harvest we must first sow the seed and cultivate the man to plant his corn at the proper time and then fold his arms and await a plentiful crop. We would regard him as preposterous; and, vet. how many we find who do not keep their children in school two months lights, and be able to move in the highest circles of life. In order to build up a healthy physical structure it requires industry, labor, proper or a first class certeficate which should be equally as good, this would have a opens on Thursday, Dec 29th. food in a proper amount; in short it requires absteniousness from all abnormal practices. To prepare a young man for usefulness in life, to do honor to himself, as well as to his par- it; this would be a great auxiliary in the State debt. ents; to be of social benefit to those with whom he is called to affiliate, he must, in some degree, be educated; to deprive him of this, is to deprive him of his best and noblest influences, which are without a substitute; to deprive him of this is to deprive him of that which enables him to move in the best circles of life, for education may be regarded as the palladium of the domestic circle, the palladium of our free schools as well as the palladium of our National privileges and immunities. Well did Dr. Beach say, "We must educate," for we beheve that he was deeply impressed with the great importance of cultivating and training the mind while in youth. Of training up the child in the way he should go, so that when he grew up to be a man he would not depart from the principles inculcated

Every youth has, or should have, a desire to be of "worth" to society. When we say worth we do not mean the common use of the word, for in our day, at least, a man's worth is meted by his dollars and cents. If Davie Jones has several hundred thousand dollars, we hear it said that he is worth more than John Sherlon- ters and things, hoping that you will Culture. da, and if Job Hazelbaker has no look over all imperfections. And I money at all, everybody is ready to trust to be able to make a full report scene remark that he is worth nothing at in April, of all the school houses in all. Thus we find that in lieu of a the county and their condition. man's intelligence measuring his worth it is too frequently the case that his dollars and cents is taken as the standard of his worth. But we believe that the time is not far disfant when a man's worth will be measured by his intelligence. Thus till every space of room was occupied. we would have every boy and girl to In due time Prof. Pierson called AND ALL RINDS OF NURSERY STOCK, AT grow up with a good education, as ev- Lieutenant J. W. Bush, to the chair; ory facility is offered, school houses and C. H. Noel, was elected Secreconveniently located and properly ar- tary. I must say, generally speak- the audience with exquisite music on ing, we have as good a class of school the "Harp," which was highly aphouses as they have in any other preclated by all present. The Rev. have as good teachers. This may able prayer in behalf of the cause of

We will now proceed to give a genterm, commencing in April. Whole 8; females 26. There were but few failures, on account, principally, of a laxity of government. Where the teachers swayed pre-eminent controling faculties, success reigned predominant, but wherever there was a loosness in this respect, failure was the subsequent result, but we rejoice in the fact that there were few such recults. The average wages for the summer was about \$33 per month. Progress, generally speaking was good and attendance the same. There has been quite a number of new buildings erected this season, of which we will speak more fully in our next report. Teachers have aided us much of text-books in our county, and parents have been directed to the importance of classification in a school. Directors will not admit of every kind axis. lieve that the earth revolved on its of a book being used, whether it can Rov. TO A CERTAIN EXTENT, there is nothing that pays the larmer so well as an amount of Fruit and Ornamental Trees and Shrubs. The low price at which I will furnish stock, places it within the reach of every land owner to have a supply of Fruits, both large and small, for the use of his family, and a grove to break the force of the bleak prairie winds in winter, and afford a deliusous shade in scorching summer, thereby changing what would otherwise be a cheriess place into a thing of beauty.

I WILL RETURN IT WITH THE PRICE AT WHICH I WILL FILL IT.

All letters of inquiry cheerfully answered.

Address HENRY HEATH, seabove.

BRYANTS NURSERIES Evening

The demand for CHARTEROAK, CHALLENGE and EVENING STAR STOVES has grown so rspidly of late that we have not filled orders as prompt ly as desirable; but having now secured the assistance of another Stove Foundry, we shall bereafter confine nearly the entire force of our own estabishment to the production of the Stoves above named, and hope to fill all orders without delay. We would call the attention of those about purchasing, to the SUCCESS and POPULARITY of all OF THESE STOVES. No better evidence of their intrinsic merit can be offered than a statement of the fact, that after 18 years use, and being subject to severe tests in all kinds of localities, and to the most bitter and determined opposition that could be invented, that they are to-day, the MOST POPU-LAR STOVES in the market, and have given such. universal satisfaction THAT THE DEMAND IS GREATER THAN EVER. If you want THE BEST COOKING STOVE FO WOOD, buy the CHARTER OAK, If you want the REST COOKING STOVE FOR COAL, buy the CHALLENGE. If you want the MEAT STAND BEST SHEET

IRON PARLOR STOVE ever made, buy the

EVENING STAR.
